

# A large range of feeding systems

Versatile applications for different requirements are the strength of our feeders. Fast and reliable feeding is always guaranteed. The suitable technology makes sure that a large variety of materials and formats can be processed.

Thick or thin products, glossy or matt surfaces, single cut sheets or signatures, open or closed edges, cards or brochures are no problem for the feeding systems from MB Bäuерle. No matter whether the feeder magazine is full or whether only a few products are left - separation is functioning smoothly. This is made possible by a principle that creates optimal conditions during separation. Although the actual quantity in the magazine is changing, the contact pressure remains the same.

The different types of feeders are suitable for stand-alone operation and also for integration into systems.

## Insert Suction Feeder

### Specifications:

Paper size: max. 305 x 216 mm (12" x 8 8/16")  
min. 105 x 60 mm (4 2/16" x 2 6/16")  
Product thickness: max. 3 mm (2/16")  
Speed: max. 23,000 cycles/h

## Catalogue Feeder

### Specifications:

Paper size: max. 305 x 216 mm (12" x 8 8/16")  
min. 130 x 100 mm (5 2/16" x 4")  
Product thickness: max. 15 mm (10/16")  
Speed: max. 23,000 cycles/h

## multifeed 3602

### Specifications:

Paper size: max. 360 x 450 mm (14 3/16" x 17 11/16")  
min. 50 x 50 mm (2" x 2")  
Product thickness: max. 3 mm (2/16")  
Speed: max. 15,000 sheets/h

# A large range of feeding systems

## Top-loading, bottom feed suction feeder PBA

### Specifications:

Paper size:	max. 380 x 650 mm (15" x 25 9/16") min. 70 x 120 mm (2 12/16" x 4 12/16")
Speed:	max. 220 m/min

## Suction feeder SF with Bulk loader BSA 5000

### Specifications:

#### Suction feeder SF

Paper size:	max. 305 x 305 mm (12" x 12") min. 203 x 203 mm (8" x 8")
-------------	--

#### Bulk loader BSA 5000

Paper size:	max. 320 x 355 mm (12 8/16" x 14") min. 178 x 203 mm (7" x 8")
Speed:	max. 150 m/min

## Flat Pile Feeder FSA with alignment table ART

### Specifications:

Paper size:	max. 520 x 850 mm (20 7/16" x 33 7/16") min. 100 x 120 mm (4" x 4 12/16")
Speed:	max. 220 m/min

## Flat Pile Feeder FSA 52-Online

### Specifications:

#### Function - cut sheet

Paper size:	max. 500 x 760 mm (19 11/16" x 30") min. 100 x 192 mm (4" x 7 9/16")
-------------	---

#### Function - continuous

Paper size:	max. 500 x 760 mm (19 11/16" x 30") min. 100 x 192 mm (4" x 7 9/16")
Speed:	max. 150 m/min
